## Frequently Asked Questions...

### Are home care services covered by insurance?

Home care is typically paid for privately or with long term care insurance. Medicare reimburses for some outpatient therapies, but does not cover non-medical home care. Medicaid provides limited home care coverage based on financial need.

### Why should I use a Fedelta caregiver rather than hiring someone myself?

Convenience, safety, affordability and accountability are a few of the reasons people put their trust in Fedelta. Why deal with hiring, payroll, taxes, workers compensation and uncertainty when Fedelta caregivers are carefully screened, specially trained, RN-supervised and licensed, bonded and insured.

### How do I know a caregiver will be a good fit?

Fedelta conducts the industry's most rigorous screening, interviewing, testing and training. We personally match a caregiver's skills and personality with a client's specific needs and preferences to ensure satisfaction.

### How can we begin exploring senior housing communities?

The most important thing is to find someone you trust to serve as your guide in exploring the many options and communities. We pride ourselves on being that partner to many families around Puget Sound. Our senior housing experts offer free, hands-on guidance to help you find the home that's just right for you.

### I live out of state. Can Fedelta monitor my dad's care?

Absolutely. In fact, Fedelta RN Care Managers go far beyond merely monitoring care. They excel in all aspects of care planning, family mediation, care coordination and much more. Above all, they keep family members fully informed on the health and well-being of their loved one.
